

Memo

To: MCWD Board of Managers
From: Brett Eidem, Cost Share Grant Administrator and Heidi Quinn, MN GreenCorps member
Date: August 10, 2015
Re: Cost Share Interactive Map Presentation

Heidi Quinn has served 11 months as a MN GreenCorps, assisting the MCWD Cost Share Program throughout her service. Her project encompassed getting updated inspections on all past funded cost share projects, future outreach to communities about the importance of water quality, partnering Master Water Stewards with grant applicants to create education programs from these demonstration projects, and most importantly, tying it all together through an interactive map that doubles as a database for the program. Heidi will be presenting her project to the Board of Managers on August 13, 2015. There are no attachments, as Heidi will go through the creation of the map and what we have gained through its implementation in her presentation.
